

Marmo Floor Normal

DESCRIPTION

Resinous marble plaster of excellent strength and hardness, quality aggregates, inorganic pigments and artificial resins.

Origin: Impex Italy

Total thickness: 2mm

Proposed layers: 2

Areas of application: Smooth concrete, Warm concrete (floor heating), Wood, Tiles-Marble, Glass, Plasterboard – Cement bonded fiberboard. Indoor – Outdoor spaces. Pool-Flooring/Wall

Application: With a stainless spatula

Waterproofing: Mild passability (2 layers of impregnation) / High passability (2 layers of crystallization with a 2 ingredient polyurethane crystallizer)

Compression strength (7 days): 39N / mm²

Compression strength (28 days >): 50N / mm²

Tensile strength (28 days): 12N / mm²

Adhesion on concrete (28 days): 1 N / mm²

Package: 15kg bucket + resin 7.2 lt

Colorings: 50 standard colors and all NCS-RAL colors on demand

Texture – Appearance: very small porous, smooth texture with a few to none color variations depending on the application
